Note: The report provides the latest 100 litigation cases within the latest 5 years (2011-1-1 up to now)

For additional retroactive, please contact China Company Search Division by email ChinaCo@cbil.com.hk.

Clarifications:

1. Court information is not open for public review in China.
2. There also lacks a centralized database for litigation information as China’s legal regime is built vertically and one segment is separate from another.
3. Litigation search service is not feasible in Chinese courts;

Information sources:

1. CBI China Litigation Database (including 15 million litigation records from 2,018 local courts in different provinces and cities of China)
2. Local courts at different levels
3. Enquired companies themselves
4. Customers and suppliers
5. News media
6. Internet

Note: The litigation records as listed in this report are not equivalent to the total number of claims the Subject is actually involved in.

OVERVIEW

【Background】

Seamless Steel is an important raw material for the national economy, and economical steel varieties. It is widely used in petroleum, electric power, chemicals, coal, machinery, military, aerospace and other industries. With the rapid development of the domestic economy, the demand of seamless pipe market is increasing at the same time. In July 1996, 夏港镇**老年协会 (translated as Xiagang Town ** Elderly Association) and 江阴市**标准件二厂 (translated as 2nd Jiangyin ** Standard Unit Factory) is jointly funded the establishment of the Subject.

【History】

The Subject was established on July 10, 1996

Since its establishment, the Subject has been actively seeking ship industry certification, it obtain professional certification in different countries in this years.

The Subject's financial data was insolvent in 2013 and 2014, its assets and liabilities ratio was 132.26% and 133.63% respectively, and the total profit and net profit is negative.

【Trends and Prospects】

Steel and iron industry is an important basic industry of national economy and is an important symbol of the level of national economic and overall national strength. Steel and iron industry's development directly affected its related industries like national defense industry and construction, machinery, shipbuilding, automobiles, household appliances, etc. However, the growth rate of China's domestic steel production increased slowly in 2012. Fixed investment in the steel industry maintained a slow growth but overcapacity was still more prominent contradictions. Chinese domestic economy gradually stabilized bottoms and had a positive impact on steel consumption. Part of the downstream steel industry has seen signs of improvement, particularly driven by a series of steady growth measures. Based on the recent steel market development trends, consumer demand for steel grew gradually into the recovery phase, the steel production capacity maintained modest growth. Chinese domestic steel prices will narrow range and callback slowly.

The Subject was established on July 10, 1996. It operated for a long time. The Subject's financial data was insolvent in 2013 and 2014, its assets and liabilities ratio was 132.26% and 133.63% respectively, and the total profit and net profit is negative. August 3, 2015, because of private lending disputes, the Subject was sentenced to repay the loan and interest to plaintiff by 佛山市南海区人民法院 (Foshan Nanhai District People's Court). Overall, the Subject's development prospect is uncertain.
